

Due to the recent escalating situation with COVID-19, we have been directed by the College of Optometrists to reschedule all Routine Eye Care until after March 29th. At this time, our doctors will be available for Urgent Eye Care ONLY on an on call basis. Please call our office and we will triage your situation and get back to you. Due to the ever changing nature of this pandemic, please refer to our website for changes to our policies and timelines in the coming weeks. You can also use our online webbooking portal to book a routine exam appointment after the 29th.

If you are awaiting contacts or glasses, we have been directed by the college to schedule pick-ups after March 29th, recognizing this date may change based on direction from the Ministry of Health.

Thank you for your understanding, stay healthy and stay safe.
